Brenda,

Oxy's movements through the wholesaler and distributor accounts historically moves much faster in the beginning of the month due to monthly quota allocations set by these customers, to their customers (i.e. pharmacies). As the month moves along, the volumes, orders and movements should taper off quite a bit.

I am in a sales seminar for the next few days so if you could pull up Cognos on this sku for KMI, you will see extremely large growth at KMI on all items, especially this one. I believe that they sold approximately 40,000 bottles last month and 36,000 bottles the month prior.

Hope this helps,

Victor and Marc,

Kate is out of the office and this will undoubtedly show up as a peculiar order.

Do you know why they are ordering so much oxy ? We need an answer that will satisfy the DEA, in they have questions in the future.

Thank you,
